Life Path Report for

Paris Hilton

February 17, 1981
New York, New York

INTRODUCTION

Most people are familiar with their Sun sign based on the month and day of birth. The Sun sign answers the question, "What's your sign?" It is the reference point that is employed when we read newspaper and magazine horoscopes. But what about the nine other heavenly bodies that make their influence felt in our lives? These planets were also in a particular sign of the zodiac when you were born. Here is where Astrology really begins to come alive for each individual. This report will take you on a revealing journey as you travel through each interpretation based on your unique month, day, and year of birth. If your birth time was included, then the Rising sign will add yet another dimension to your personal horoscope interpretation. If it is not included because you don't have an accurate time of birth, there is still much useful and insightful personal information that can be gleaned from your report.

This report takes into account the various spiritual and psychological implications, as well as the material plane potentials which are part of your individual life plan. In this case the word potential is used because you have been given a certain amount of free will and the life choices that you make will determine to a large extent the level at which these cosmic energies actually play themselves out. Use this report to find confirmation for what you already feel intuitively and to unlock the door for new life possibilities that you may not have yet considered. This is where the strength and real value of your personal Astrological report is found.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:

Chapter 1: The Ascendant

The precise time on the day of your birth determines your particular Ascendant, also known as your Rising Sign. This was the zodiac sign that was rising over the horizon when you were born. In addition to your Sun and Moon Sign, the Rising Sign reveals very important traits that make up a major part of your personality and your individual approach to life. This is usually the impression you like to make before you really get to know someone; it is your outer personality and image.

Gemini Rising:

There is a distinct part of your outer personality that expresses itself very much like a Gemini. You are versatile, tolerant, curious about life and you have a special ability to fit into almost any group of people because of your open-minded approach. Since this was the sign of the zodiac that was rising over the horizon at your time of birth, the principle of Gemini--how you communicate--will be integrated into almost every area of life in some way.

Mercury is your chart ruler. To discover even more about what's a priority for you, and also, the first impression you make on others, read everything in the chapter on Mercury.

Venus in soft aspect to Asc.:

Venus here blesses one with a charming personality and a demeanor that others find very appealing. You can use the powers of subtle persuasion and diplomacy to win other people over. Your physical image is important to you and you have a knack for putting together an attractive package to present to the public.

Neptune Conjunct or in hard aspect to Asc.:

You can be whatever you can imagine yourself to be, so, make sure you only imagine the best! You may have some inner doubts about yourself that make it difficult for others to pick up a strong impression of whom you really are. Until you cultivate a firmer picture of whom you really want to be, other people will continue to find it hard to figure out the real you. This can be a plus if you're an actor or a spy. It comes in handy if you ever need to blend into the background, too.

Your sensitive side can be like a sponge that soaks up all the woes of the world and troubled souls are often attracted to your aura. It's a fine thing to want to help, but you must learn to draw some boundaries in this regard, because you can be very vulnerable to getting sucked into other people's realities.

Pluto in soft aspect to Asc.:

An undercurrent of intensity runs through you which you may not even be consciously aware of. Other people sense that you have a powerful will and that you're not opposed to exerting it when what you perceive to be your own survival is at stake.

Your drive and dedication toward the completion of goals is formidable and, as such,

quitting is not usually a natural concept for you.

You are a complex person. Even those who are very close to you will only understand a fraction of the real you. At some point, your whole outlook on life will completely transform itself. The process may not be easy, but you'll emerge a completely changed person on some level of your innermost self.

Chapter 2: The Sun

The placement of the Sun in your chart will show you how (the sign) and in which area of life (the house) tremendous potential exists for you. Here is where you want to be successful. The Sun cannot be ignored. We must meet and deal with the area of life that the Sun shines on in our chart in order find ultimate fulfillment. Everything revolves around the Sun. When you master whatever issues the Sun points to, then other areas of life will proceed in a more balanced and satisfactory manner. The Sun also represents: your own will, major goals, the father, men in your life, children, creativity, and the real inner you.

Sun in Aquarius:

Unconventional and freedom loving, you are an individual in the truest sense. You have strong opinions which you will hold onto adamantly. Because of this, others sometimes get the impression that you are quite stubborn and headstrong. Even so, you are friendly and sociable, and many Aquarians are drawn to group situations. You might be someone who prefers many acquaintances rather than a few close friends. This trait can make you seem somewhat cool and a bit detached.

Aquarius is a very independent sign and there is a part of you that wants to be sure that your personal freedom is preserved.

You may be strongly attracted to anything that upsets the status quo. You have the heart of a revolutionary even though you may not express it with obvious outward behavior.

You have a definite intellectual bent and much of your thinking embraces ideas that are ahead of the times. You're inventive and progressive. When the Aquarian traits are especially strong you may even have a desire to change the world and make it a better place.

Sun in 10th house:

Your personal fulfillment is reinforced by accepting responsibility for others. This principle is usually filtered through the attainment of career objectives. Other people may rely on your "success" and you might find yourself in the role of the breadwinner.

You may also find yourself in the public eye through your profession. Your career can present a major life challenge, but the potential to experience solid achievement through dedication to goals is also supported.

There is a side to you that can be serious, dedicated and hard-working. You're

ambitious and you have the discipline to focus single-mindedly on goals. Sometimes pessimism gets the upper hand. Lighten up.

Mercury Conjunct or in hard aspect to Sun:

Sometimes you feel as though the only way to make others hear you is to add a touch of flamboyance and color to your communications. You don't especially like to change your opinions once they are formed.

Uranus Conjunct or in hard aspect to Sun:

You experience some inner conflicts whenever you try to integrate your unique individualism with the other part of you that feels it must gain the approval of others.

You have a talent for shaking up other people's comfort zones. The assignment that comes with this aspect is to express your need for freedom and originality without unduly alienating those would help further your aims.

Pluto in soft aspect to Sun:

The expression of your will receives a power punch from the planet of intensity, Pluto. You can meet and transform the most serious obstacles to your self development and growth. You can lead the pack, so to speak, because you have that special something called charisma.

Be sure to use your magnetism to further humankind in a positive direction. All leaders eventually reach a crossroad where they will choose between a path of manipulation and power, or conscientious service.

Chapter 3: The Moon

The Moon in your chart represents the past and points to an area of life (the house) where we function out of instinctive awareness. Often we have a deep emotional need to do the things that the Moon's house placement represents. Whenever insecurities arise and our feelings become involved, we tend to bring the traits (the sign) of our Moon into play. The Moon is like our security blanket. It also represents: the home, females in your life, the mother, nurturing others or being nurtured ourselves, as well as things related to the domestic scene in general.

Moon in Leo:

You need recognition and praise. You are warm hearted and playful with a flair for the dramatic. You exude an air of self-confidence that makes other people want to give you the recognition you desire.

It is often natural for you to assume dominance in social situations and being the center of attention isn't something you shy away from. You take naturally to being in

charge and you are comfortable with the responsibility that comes with authoritative positions.

You have a good deal of pride, which in spite of your "I can handle anything" aura, can surprisingly be easily wounded.

When you feel emotionally down, socializing or any form of recreation will pick you up again.

Moon in 3rd house:

You're quite imaginative, and there is a strong emotional need to communicate and to express your ideas. You need to be heard and you would like others to appreciate what you have to contribute intellectually. Your mind is changeable and you must make an effort to focus consistently on one thing at a time.

Your upbringing influenced your thinking and/or your attitude toward expressing yourself.

A close network of siblings, relatives, or even neighbors and community involvement are important to your emotional well-being.

Venus Conjunct or in hard aspect to Moon:

Other people find you to be a soft touch. There is a gullible side to you that will toughen up as you mature.

You also like to indulge yourself in immediate gratification and to heck with disagreeable duties; they can wait 'til later.

Chapter 4: Mercury

Mercury is the planet of communication. It tells us about how we think and talk. You can gain insight into your mode of gathering, processing and transmitting information from Mercury's placement in your chart. Mercury also represents: transportation, the five senses, youth, reading, and writing.

Mercury in Aquarius:

This placement of Mercury makes you bright, intuitive and able to understand unusual ideas and concepts. While open to new ideas, you are not likely to change your own opinion readily without careful consideration. You are an original thinker with an inventive and resourceful mind. You avoid traditional viewpoints and in the extreme may develop a reputation for eccentricity. You may even enjoy shocking others just for the fun of it.

Mercury in Aquarius endows you with an excellent memory and can make you quite talkative. Your intellectual abilities make you an interesting conversationalist.

Astrology and/or other occult disciplines may stimulate your curiosity and appeal to your need to look beyond more traditional sentiments.

Universal Psychic Guild <http://www.PsychicGuild.com>

Page 7 of 20

Mercury in 10th house:

This can indicate a career where the ability to communicate is employed. Or, somehow the field of communications can be related to your career. You speak with authority. Other people pick this up even if you aren't making a conscious effort to do so.

You might end up in more than one profession before settling into one. Your main career can require some travel.

Chances are that your ideas can come into public view. Use the power of words to influence authority figures.

Uranus Conjunct or in hard aspect to Mercury:

Do you ever enjoy seeing the shocked looks you get from others when you blurt out something totally off the wall? You just may, with the planet of rebelliousness meeting your communication planet. Or, it's quite possible that this manifests simply as a lack of tact, which is not necessarily intended on your part.

You can excel at anything where verbal skills and intelligence are necessary, although you may have to develop them.

Neptune in soft aspect to Mercury:

This endows you with the ability to use your faculties of imagination along artistic or musical lines. You can easily tune out reality from time to time and you often prefer to live in your own idealistic world. You are often more in sync with the dreamy, mystical side of life than with the mundane affairs of everyday duties and responsibilities. It is easier for you than most other people to cross the line between reality and imagination.

You can talk a blue streak at times, yet at other times you can completely clam up.

Pluto in soft aspect to Mercury:

You can drastically alter your life utilizing the power of thought and words.

Therefore, it is advisable to watch what you say and to banish negative thinking.

Spoken and written affirmations carry extra weight with this aspect, so make them positive and life affirming.

Mercury is Retrograde

Lots of conversations are carried on inside your own head. With Mercury retrograde, you rarely blurt things out without thinking them over first. As a result, you may often find it easier to express yourself in writing. If so inclined, you'd make an excellent writer.

Chapter 5: Venus

Venus is the planet of relating to others, and thus is associated with love, attraction and socializing. In a male's chart, Venus can provide clues about traits he finds attractive in females. In a female's chart, it reveals something about how she relates to males. Venus is also the planet of material goodies and sensual delights in all of their various forms. Venus also represents: money, harmonious conditions, pleasurable activities, beauty, and the arts.

Venus in Aquarius:

You are friendly and cooperative by nature, but you may appear somewhat aloof and detached in the eyes of others due to the highly independent spirit of Aquarius.

You are quite attached to your freedom and even though you can be as loyal as anyone, you must maintain a certain amount of autonomy in relationships. In general, your friendships may include many people versus single, intense partnerships. This placement of Venus can bring sudden and unexpected attractions that sometimes end as suddenly as they begin. Ideally your partner is a friend as well as a lover and will understand that your need for independence doesn't mean that you're not interested in him or her.

You function well in groups and may be especially attracted to groups which promote a common cause. Aquarius is the sign of humanitarian interests and wide-scale change. You live by your own code (which may be quite unique) regardless of what society thinks.

Your money may be subject to circumstances beyond your control or you could have more than your share of unexpected financial situations to deal with.

Venus in 9th house:

You enjoy traveling and you receive pleasure from anything that expands your horizons both physically and mentally. You love the world of nature and getting away from city life now and then promotes inner peace and contentment. Foreign people, places and things tend to be beneficial for you in the long run and you might even marry someone from overseas.

You are expansive in matters of love and you enjoy being generous when you have a little something extra to spread around.

Chapter 6: Mars

Mars is our planet of action, energy output, motivation, and instinctive biological drives. It shows how and in which area of life you are willing to put forth a lot of effort. Mars' energy is quick, impulsive, and survival oriented. In a male's chart, Mars reveals something about how he relates to females. In a female's chart, Mars can provide clues about the traits she finds attractive in males. Mars also represents: competitive situations, conflicts, accidents, and sexual energies.

Mars in Pisces:

You are highly emotional and even though you may give the impression of being calm and collected, you often experience an inner unrest that others are not aware of. The principle of Pisces is to dissolve and when this acts on your energy and motivation you may find it challenging to maintain a sustained level of output. You basically dislike confrontation and you will often repress your anger. However, when you do finally explode, you may actually find it hard to calm down and "get over it."

You have a side to you that is quite sensitive and is even willing to put your own immediate desires aside in favor of the needs of another. This is because Pisces is the sign that breaks down boundaries and you will find that others are perfectly willing to take advantage of you if you allow it. This can lead to a feeling of being used. It's important for those with this placement to learn to set firmer limits and to express anger in a healthy manner which avoids the extremes of either repression or uncontrollable outbursts.

Mars in Pisces supports the psychologist / artist / musician / actor.

Mars in 10th house:

Have you had your share of conflicts with those who hold positions of authority? Does the boss make your blood boil? Your career is important to you. You put in more than your fair share of time and effort, and you feel completely justified making your opinions known to those who hold the key to your survival. The problem is, you don't beat around the bush or sugar coat it and that can cause conflict with people in charge.

You have little patience with societal traditions that are outworn and serve little practical purposes. However, you do appreciate recognition for your achievements and you (secretly?) enjoy owning at least a few status symbols.

Chapter 7: Jupiter

Jupiter is the planet of expansion and taking things beyond normal limits. It shows us where the universe allows us to indulge ourselves, and often we find that wherever it is in the chart is where things work out in our favor eventually. Some call this luck. Jupiter also represents: faith, ideas about God, abstract thinking, high ideals, and abundance.

Jupiter in Libra:

You are a born diplomat and many of the benefits in life come to you through cooperative efforts with other people. Often you will sacrifice your own personal desires in order to avoid conflicts in relationships.

There is an instinctive awareness of the principle of giving and receiving and close partnerships are advantageous for you. Beware of giving up too much of your own interests in favor of the will of others, as even though this can be an admirable trait, resentment on your part can eventually develop.

You can be extravagant, lavish and indulgent with yourself and others. You have a deep appreciation for beautiful things and you may have some artistic talents.

Jupiter in 5th house:

If you ever decide to do a little gambling or financial speculation, Jupiter here can make you luckier than usual. Beware of overconfidence in this area though, as Jupiter can tempt one to take foolhardy risks.

Creative endeavors are enhanced with this placement.

You enjoy your leisure time, and your social/romantic life is very important to you. Your heart is big and you're generous with your love.

Saturn Conjunct or in hard aspect to Jupiter:

Often you feel challenged to find a balance between letting your hair down and otherwise indulging yourself, versus doing what is considered proper and acceptable by traditional standards. Saturn, the planet of restraint, is urging you to create an equilibrium between these urges. Remember that you are being encouraged to find a balance, which doesn't mean you must eliminate joy, optimism and hope.

Trust your intuition and nurture faith and positive thinking. If you find that obstacles to the realization of goals always seem to pop up, then it's important for you to take an honest inner inventory of what you really believe you deserve.

Immerse yourself in all activities that encourage self-esteem and positive thinking.

Jupiter is Retrograde

Your abundance is felt on the inside. You can feel satisfied with less than other people, which can be quite admirable in a way. The result is, it's easy for you to settle for crumbs when you'd really like more out of life. Take an honest inner inventory of what you believe you deserve, because that's what you'll get. Affirm to yourself that you can have what you want because you're worth it.

Chapter 8: Saturn

Saturn is our planet of restriction and discipline. It shows us where we may feel inadequate in some way, and thus we take this area of life very seriously because we want to perfect ourselves. Saturn also represents: life lessons to be learned, trials and tests, a strong sense of duty, and bringing ideas into material form.

Saturn in Libra:

Your sense of cooperation and fair play is well developed. You would rather avoid situations that are highly competitive, preferring to work harmoniously with others. You have an open ear for both sides of an argument. Even if you don't agree with an opposing viewpoint, you can at least understand it.

This can indicate a former lifetime in which the sense of self and the gratification of immediate desires were out of balance. This lifetime will present many opportunities for learning to balance the principal of giving and receiving. There is still a part of you that can be quite demanding and impatient with the shortcomings of other people. However, you have the ability to become nearly perfect in the art of mediation and tolerance.

Reminder: if you want to receive tolerance from others, then remember to be merciful with the imperfections of others.

Try to avoid large quantities of caffeine and sugar loaded soft drinks. Your kidneys do best with pure water.

Saturn in 5th house:

You may feel as if life has short-changed you in the department of pleasurable, fun, creative activities. You will have to make the time for these interests and you must put in a little overtime in order to develop the creative, fun side of life.

Feelings of inadequacy about your parenting abilities can make you want to overcompensate in that area and you can end up being a very good parent.

Get in touch with and heal your own inner child if necessary. This is a lifetime to learn all about loving from the heart. Do it big.

Saturn is Retrograde

No one can give you a hard time like you can give yourself. You rarely feel satisfied with your own efforts. Constantly nagging inner voices of self criticism and unrealistic ideas of perfection can censor spontaneous creativity and squelch action before you even get started. You'll have to practice self trust. "Let go and let God" is a good mantra for you to mentally recite until your subconscious gets the message. Here's another: I will do my best and forget the rest. I will do my best and forget the rest. I will do my best and....

Chapter 9: Uranus

Uranus is a planet of unexpected change and unpredictable events. It tells us something about where we have unusual ideas and how we want to express our own unique individuality. Uranus also represents: rebelliousness, sudden awakenings, invention, progress, genius, anything "New Age," and humanitarian efforts.

Uranus in Sagittarius:

Uranus was in the sign of Sagittarius approximately seven years. This means that you are part of a large group of people who will share many of the same fundamental characteristics such as the ability to be expansive in nature, adventurous and very philosophical. These people are capable of highly independent views of orthodox religious concepts, unusual approaches to education and a strong desire for intellectual freedom.

When you read your individual house placement for Uranus, you will be able to see where these traits will express themselves on a more personal basis.

Uranus in 6th house:

You can be ingenious when it comes to the work you do. This applies mostly to jobs that you take in order to survive. Perhaps you'd like to be your own boss. That's understandable, as Uranus in this house can create many changes surrounding employment.

You either work with unusual people or you may feel as though you are the one who is always out of step with the status quo.

You can develop a talent for doing detailed work if it's something you really have an interest in and it's not too boring.

Chapter 10: Neptune

Neptune is a planet that dissolves hard and fast boundaries. It is where we don't always see things as they really are, mostly because we would rather view the world through rose-colored glasses.

With Neptune, anything becomes a possibility, especially that which we can imagine. Neptune also represents: tuning into other planes of reality, the spiritual dimensions, cosmic consciousness, movies, music, and inspired creativity.

Neptune in Sagittarius:

Because Neptune stays in the same sign about fourteen years, there are many other people who will experience the same things that this placement brings to varying degrees. Some of these include: the ability to integrate unorthodox spiritual concepts with more traditional viewpoints, an intense attachment to personal freedom and philanthropic leanings based on compassion and idealism.

Your house position will show where Neptune affects your life on an individual basis.

Neptune in 7th house:

You'll be happier and lessen the chance of letdowns in the partnership area if you learn to see people the way they really are rather than the way you'd like them to be. When you project intentions that are clear and you're willing to reveal your own true self then you are more likely to pull in people whom you can rely on. Any self doubts will be reflected back to you through others who are unreliable. You search for the ideal partner and you can eventually attract someone who is like a spiritual mate. You're capable of making great sacrifices for the sake of partnerships.

Pluto in soft aspect to Neptune:

Bigotry and narrow thinking are huge turn offs for you. You lean toward a humanitarian outlook and you see the big picture, whether it applies to you or society as a whole. Mysticism, magic and the occult attract your interest and you can choose to use any knowledge gained to produce positive results.

Spirituality can undergo a complete regeneration process, and what went before will be transformed into something that doesn't even resemble the former. Usually there is a period of total chaos and confusion before order is restored.

Anything that is based on deception and pretense will be brought to light and purged accordingly. The effects of this aspect are often generational and the outcome will affect large segments of the society you live in.

Chapter 11: Pluto

Pluto is a planet that brings with it transformation. Something about the area of life that it points to will undergo a complete change. Significant lifestyle changes can happen whenever Pluto is involved. Deep, complex issues will be brought to light eventually. It is where conditions can swing from one extreme to the other. It's all or nothing.

Pluto also represents: psychological probing, keeping secrets or bringing them to light, power and control issues, obsessions, healing and purification.

Pluto in Libra:

Pluto is the slowest moving planet, and thus is recognized as exerting a generational influence as it moves through each zodiac sign.

With Pluto in Libra you're part of the generation that can experience radical changes in the marriage code, the justice system, arts and culture, as well as relations with others both here and abroad.

On a personal level, those with Pluto in Libra tend to be adaptable, intellectual, extravagant and concerned with fairness.

Read the house placement for Pluto in your chart. It shows you an area of life where this planet has a more personal influence.

Pluto in 5th house:

When it comes to love, it's all or nothing as far as you're concerned. You either throw your whole being into it, or choose to remain completely detached.

It is important to express your will, but watch the temptation to use manipulation and control to get your way. It can backfire.

At some point in life, finding a creative outlet will have a healing effect on you. Do it for the pure enjoyment of it. Your attitude toward play and creativity can undergo a drastic change.

Pluto is Retrograde

Some people go through massive changes that are clearly shown in outer circumstances. You go through tremendous inner upheavals followed by rejuvenation on the inside. You are one strong individual. You have depth of character and a lot of class. You've earned it. You're like tempered glass. You might crack, but you won't shatter.

Chapter 12: Elements, the North Node, and the Midheaven

In this section of the report we interpret the following astrological influences: the Moon's North Node, the MC (the 10th house cusp or Midheaven) and also a preponderance of an astrological element. A "preponderance" occurs when 4 or more planets or the Ascendant is in that element: fire, earth, air, or water. Many people do not have a heavy emphasis of a particular element so not everyone will have an interpretation of an element emphasis.

If the individual chart has aspects to the MC, these will reveal certain career options and potentials for your consideration.

The North Node is an important pointer along the pathway of life. You'll have to be willing to stretch yourself and move away from familiar patterns in order to meet the challenge of the North Node. Great rewards will be reaped in the form of personal growth and reaching your potential goals. The North Node sign will suggest an approach to the area of life represented by its house position.

North Node in Leo:

Incorporating the following traits into your life will make it easier in the long run to attain goals.

The best way to describe this principle is to imagine a bird having to leave its nest for the first time. It is extremely challenging, but it's the only way to really learn to fly. Give yourself permission to shine. Discover that it's O.K. to be in the spotlight. Learn to accept praise and recognition for your achievements. Develop a healthy self-esteem and work on believing that you can accomplish your goals. Pay attention to what your inner child wants to do and then go for it. Play, create, and follow your heart's desire. Take some calculated risks just for the fun of it.

North Node in 3rd house:

The universe is encouraging you to play up the aforementioned traits in these areas of life.

Consider the following: allow yourself room for lots of new learning experiences. Play up anything that relates to the communication of your ideas. Gather and share information as a continuous process of learning. Become an integral part of your immediate community and the neighborhood you live in. Get yourself out and about.

Enjoy some new scenery by car, bus, train, bicycle or whatever appeals to you. Stay in touch with and honor the relationship you have with relatives, such as aunts, uncles, siblings, cousins, etc.

MC Conjunct or in hard aspect to Sun:

You'll have to develop the ability to put yourself in the limelight in order to go after what you really want career-wise. Ego conflicts with those in authority can create setbacks until you learn the art of finding a middle course.

A career that provides an outlet for creative self-expression, leadership abilities and personal recognition is important to consider. Hint: read the section on your Sun

Page 16 of 20

Sign and ask yourself how those traits might best be expressed when choosing a career.

MC Conjunct or in hard aspect to Mercury:

You'll have to come up with some clever ploys to get your ideas noticed by those at the top level, but you have the ingenuity to figure it out. Some of your inspiration, although excellent, conflicts with the boss's own ideas. Rely on persistence and don't let rejection pull the plug on your enthusiasm.

Variety is the key to your career. Either a variety of careers, or perhaps a medley of duties to perform within a single career. Reporter, writer, accountant, educator, researcher, scientist, salesperson. Wherever the transmission of information is necessary, therein lies a career possibility for you.

MC Conjunct or in hard aspect to Uranus:

You can be an extremely efficient worker. You have an aptitude for finding shortcuts and this inborn talent comes in very handily in the career department.

Your innermost self rebels at having to put up with a steady dose of being told what and how to do something. This is because you have an inventive mind that can zero in on a more effective way to get the job done. Alas, there are too many who would rather stick with the tried and true. These experiences can encourage you to find a way to be your own boss. You may be drawn to unusual career choices or those which allow you to express your unique ideas in some capacity.
