## Introduction to Karmic Astrology

The effects of past life experiences can carry over into your current life, accounting for interests, habits, even phobias which would defy explanation by conventional methods.

This report examines possible past life connections using astrological methods. It is not intended to be taken as a complete interpretation of your birth chart; it looks at your chart from only one perspective.

It is written in simple language, avoiding the use of astrological terms as much as possible. For the interest of students of astrology, relevant astrological references are made at the top of each section.

There are certain factors which indicate a need to seek further answers through past life regression. If you find reference to this within your chart, you may discover that your spiritual growth will be enhanced by using this method. (Note: Individuals with a number of these indicators in the chart have probably already experienced spontaneous regressions.)

Not all charts will indicate a need for regressions. If your report does not indicate such a need, then it is most likely that discovering your past lives through regression is of little interest to you this time around.

Thank you for your order!

## Chapter 1: Most Important Prior Life Experiences

In traditional astrology, the Twelfth House represents your self-undoing, hidden matters and the subconscious process. It is believed that we carry karmic memories in our subconscious, and that these subconscious memories can undermine our current life efforts.

When we remove the walls created by subconscious fears and guilt, we find that the path to personal transformation lies beyond.

If, in your chapter you find a number of descriptions of planets placed in your twelfth house, consider exploring your hidden self through past life regression.

### *12th house cusp in Virgo*

You hide your ability to see every detail, preferring to appear scattered and vacillating. Trivial matters worry you and excess concern could result in nervous disorders.

Look for a significant prior lifetime in a detail-oriented endeavor. Possible areas of past life experience could include being a librarian, accountant, statistician, tax collector or technical writer.

### *Virgo 12th House, Libra Rising*

Co-operation and harmony are of great importance to you. You have a strong sense of justice and fair play. You have learned the ability to see details in your prior life and can now see the whole as well.

### *Mars in 12th House*

In a previous life you utilized brute force to gain your power. Weaker opponents were not shown mercy or compassion. This life time, you avoid physical activity and may have difficulties asserting yourself, fearing your prior life's brutality.

**KARMIC LESSON:** Balance your life to include both physical and mental conditioning. Fears that seem overpowering, when brought into the light, are indeed very tiny.

## Chapter 2: Saturn (The Great Teacher)

The source of many of our self-imposed restrictions can be found in the placement of the planet Saturn. The location of Saturn in a horoscope represents the area of life where we have to learn the greatest lessons. It is through these lessons that we grow and improve.

Just like your least liked teacher in school, Saturn's lessons require hard work and self-discipline. And like the lessons from that teacher, Saturn's lessons are not easily forgotten. The lessons you learn help you to find order and security in your current life.

When a lesson from a prior life was not learned, you can experience inexplicable guilt or self-restriction. Exploration of the unlearned lessons of Saturn can free you to use all of your natural talents.

### *Saturn in 1st House*

Seriousness and a sense of responsibility permeate your being. You have had many burdens placed on you from childhood on. You may have had a difficult birth. As a child you seemed more mature, almost rigid, when compared to your peers. As an adult, you tend to take on more responsibilities than you can comfortably handle. Watch for tension areas in the shoulders.

You are an old soul, someone who, in prior lives, has had responsibility for the welfare of many others. Through your actions or the actions of others, you saw those in your charge suffer. This time around you are still blaming yourself for their suffering. In some circumstances you have chosen to incarnate with those very same people.

On the positive side, you are very self-sufficient. On the negative side, you extreme for the welfare of others can make you fearful of taking any decisive action.

As you mature, your purpose in this life will become very clear and you will see the restrictions experienced in your youth providing you with the fortitude to achieve that purpose.

THIS PLACEMENT OF SATURN INDICATES THAT PAST LIFE REGRESSION IS NEEDED.

*Saturn Conjunct Pluto:*

You have considerable will-power and inner strength, having endured many hardships in prior lifetimes. This time, you tend to view your life with great seriousness, believing that hard work and self-sacrifice will bring success. Sometimes, you will hold on to a lost cause because you are not comfortable with change. Your challenge in this lifetime is to learn flexibility and to accept all experiences as part of the growth process.

*Saturn Square Venus:*

A sense of duty was the reason for maintaining partnerships in prior lifetimes. This time, you find it difficult to accept the gift of love and consequently may feel very lonely. When you learn to appreciate your loved ones for whom they are, you will diminish feeling of isolation. Much of your stress in this life comes from relationships, either family or work, and you tend to direct that stress inward.

*Saturn Sextile Neptune:*

You know how to use practical methods to realize your dreams, organizing yourself to meet your goals without giving up your ideals. In prior lifetimes, you made considerable sacrifices to attain spiritual understanding. In this life, you are attracted to the rhythm and flow of life as expressed in art, poetry or music.

### Chapter 3: Jupiter (Your Karmic Gifts)

Personal karma is not necessarily negative. You bring to this life certain talents and interest which enable you to expand your horizons. Often overlooked for its karmic value, the placement of the planet Jupiter in your chart can tell you about your karmic gifts.

Jupiter describes spiritual rewards as well as the area of your current life where you may experience material gains.

The lesson of Jupiter is best described as the acceptance of the law of karma. The rewards you reap in this life time come from your prior life's good deeds, and your future benefits (this life or another) are the rewards of your present fair dealings and generosity.

#### *Jupiter in Scorpio*

You have strong beliefs based on deep emotional feelings. You are intensely private about your personal philosophies you have a great sense of determination and willpower.

Your prior life in a business relating to other people, such as insurance, estate planning, fund management or funerals has given you the ability to keep other people's business confidential.

#### *Jupiter in 2nd House*

You can make fortunate decisions in business matters. What seems to be luck in getting opportunities is actually good business sense brought over from a prior life, where you were involved in either real estate, farming or manufacturing of practical, necessary products.

#### *Jupiter Conjunct Pluto:*

You have experienced many transformations and upheavals in prior lifetimes. This has given you a great deal of inner strength and power. You are very strong-willed. This time, you can use your physical and psychic resources to bring about healing in yourself and others. You have such a strong will that it is easy to forget that other people have ideas and opinions as well. Temper your strength with tolerance.

#### *Jupiter Square Venus:*

Idealistic romantic notions kept you from establishing partnerships in your prior lifetimes. The possibility of that perfect love was always in your dreams. The residue of your prior life's habits, if left unchecked, may keep you from establishing a meaningful relationship or from working to maintain what you already have.

## Chapter 4: Nodes of the Moon (Your Karmic Doorways)

The point on a horoscope chart called the North Node of the Moon is not actually a planet, but can be thought of as a doorway from your current life to your future. And, its opposite point (the South Node of the Moon) can be thought of as a doorway from your past life to your current one.

These two sensitive points can show you what goals you are concerned with in this life and what habits from prior lives are holding you back from reaching those goals.

### *North Node of the Moon in Cancer*

Struggle and hard work in prior lifetimes has left you feeling that you need to spend this lifetime in a more nurturing atmosphere. In those prior lives, you achieved recognition through your persistent efforts and you often make your work in this life harder than it needs to be.

Achievement was the primary goal in prior lives, forcing you to restrain and control yourself, emotionally and materially. This time around you are learning to allow your feelings to surface and to loosen the reins on your spending.

Since your past life's habits can surface at the most inopportune times, you are sometimes inconsistent in your spending patterns.

You have possibly spent prior lives as a prominent business person, a political leader, administrator of an institution (such as a school, prison or hospital) or in any area where discipline and accomplishment were valued highly.

In order to maintain the balance between your two karmic doorways, you need to awaken the feminine side of your being. Nurturing and your domestic life are requiring attention this time around. You have received much from others in past lives. This time you must learn to give.

## Chapter 5: Planets in Retrograde (Reversed Energies)

Planets in a horoscope chart which are marked as being in retrograde motion, hide or reverse the true energy of that planet.

From a perspective of past life experiences, this usually means that some experience in a prior lifetime was so negative that the individual refuses to use that planetary energy in any manner.

### No Planets in Retrograde

The absence of retrograde planets in your chart indicates that past life influences are of minimal importance to you in this lifetime. Your current life brings new experiences for you, as you have completed what you set out to do in prior lives. This may also be a lifetime to rest and reflect what has been learned before. You may have an interest in exploring your past lives, but since you are not learning lessons carried over from prior lifetimes, it is more a matter of curiosity than a strong desire.

Your birth chart interpretation is based on the positions of the planets at the time of your birth. For the benefit of students of astrology, these positions, along with other technical information, are listed below:
