## The Psyche and Eros Compatibility Report

What is it you want to know when you are checking out a romantic relationship? Basically two things. First, you want to understand the emotional needs, temperament, hang-ups and issues each person brings to the relationship. In other words, the relationship potential of each person. And then, of course, you want to understand how the emotional needs, temperament, hang-ups and issues of one person relate to those of another person in order to see how they would get along. In other words, the compatibility analysis.

The first two sections of the complete Psyche and Eros Relationship Analysis describes the relationship potential of each person. Sections 3 and 4 is the compatibility analysis and describes how the two people experience each other and the relationship from the perspective of each person.

The myth of Psyche and Eros is a love story which shows the soul's longing for -- and ultimate attainment of -- love.

## SECTION I: How David Relates to Other People

### *Mercury Quintile Mars with an orb of less than 1 degree*

Your sense of humor is one of your outstanding qualities. It usually manifests as a rather wry wit. Anyone you're close to must share this sense of irony. You probably have a special talent or an absorbing interest. Your closest ties are likewise involved.

### *Sun Sextile Mars with an orb between 1 and 5 degrees*

You are assertive without being overly aggressive and usually go after what you want with confidence and enthusiasm. You enjoy sex and your partners tend to be dynamic, successful people. Your natural energy and moxie is usually sexually interesting to others.

### *Sun Sextile Saturn with an orb between 1 and 5 degrees*

You are serious, responsible, well-organized and protective. You take care of the people to whom you are close and see to it that their practical needs are attended to. For you a relationship is successful when it falls into a comfortable, pleasant routine.

### *Mercury SemiSquare Jupiter with an orb between 1 and 2 degrees*

Details are not your cup of tea. You are fascinated by philosophy and the world of ideas. You are a great talker and reader and your best companions will be those who share your concepts and ideals. You prefer professional people with a certain flair.

### *Mercury SemiSquare Saturn with an orb between 1 and 2 degrees*

You are a serious person and inclined to be somewhat inflexible in your thinking. Since you tend to be rather judgmental, you could only be happy with someone who is in philosophical agreement with you and conceptualizes the world as you do. Sometimes you are rather taciturn.

### *Venus Square Mars with an orb between 5 and 8 degrees*

Yours was not a happy childhood and, while there is nothing you want more than a close love relationship, you may also fear it. You probably have an active sex life but may have some discomfort acknowledging feelings of love, dependence or vulnerability.

### *Venus Trine Uranus with an orb between 5 and 8 degrees*

There is nothing humdrum about the way that you love. You have a flair for the unusual and the creative and are drawn to those who shun the conventional. You shy away from those who tend to be over-possessive. Your love affairs are also wonderful friendships.

## SECTION II: How Victoria Relates to Other People

*Mercury Trine Neptune with an orb of less than 1/2 degree*

You know things intuitively as well as rationally and have a rare capacity to perceive in others feelings, thoughts and dreams they may never have openly shared. Anyone close to you would have to share your love of music and interest in spiritual thought.

*Venus Conjunct Jupiter with an orb between 1 and 3 degrees*

Yours was an indulged childhood with lots of love and lots of cookies. You have a generous nature both emotionally and materially and people are usually pleased to provide you with the love and creature-comforts you both require and cheerfully give.

*Mars Conjunct Saturn with an orb between 1 and 3 degrees*

Your emotional needs were not met when you were growing up and there was nothing you could do about it. Even today, you tend not to express anger or pain or resentment except when you are in an infrequent rage. This is a problem in close relationships.

*Sun Opposition Uranus with an orb between 1 and 3 degrees*

You are restless and independent and, no matter how close you become to someone, you always remain your own person and there is a part of yourself you cannot share. You are uncompromisingly true to your convictions which must be shared by those close to you.

*Venus Square Neptune with an orb between 1 and 3 degrees*

Love for you is often a "divine discontent". You are so romantic and idealistic it is difficult for any mortal person to sustain your interest without disappointing you. Your need to idealize loved ones may make you susceptible to illusion.

*Sun SemiSquare Venus with an orb of less than 1 degree*

Your love nature is very turbulent. You form relationships impulsively and then worry it's with the wrong person. There seems to be a dichotomy between the person you know yourself to be and the person you feel you should be in order to be valued and loved.

*Venus Sesquiquadrate Uranus with an orb of less than 1 degree*

You need to be close and you need to be free. This is a major life conflict which has always created complications for you in close personal relationships. One

manifestation of this may be a tendency to pursue the unavailable or the unreliable.

*Mercury Opposition Pluto with an orb between 3 and 5 degrees*

You're not awfully good at being disagreed with. You delve into matters, think them through thoroughly and expect your conclusions to be universally shared. Flexibility is not your strong suit. No one should try to lie to you or keep things from you. Somehow you ferret out others' secrets although you keep your own.

*Sun Sextile Mars with an orb between 1 and 5 degrees*
