The Love & Romance Forecast Report for

Nicole Richie

September 21, 1981
Berkeley, California

February 13, 2007 - March 13, 2007

Your Love & Romance Forecast begins on the following page. If the time period for an interpretation is, for example, given as "Apr 1, 1998 (Feb 15, 1998 to May 15, 1998)", then it starts in mid-February, reaches greatest intensity around April 1, and ends in mid-May. The first date listed is the time when the influence has reached maximum strength; we can call this date the "peak date". The influence starts on the beginning date, gradually increases in strength until the peak date is reached, and then it gradually fades out until the ending date is reached.

You may also notice that the same interpretation shows up periodically during the year; this is not unusual. To eliminate redundant interpretations, you may be informed that the astrological influence also occurred earlier and that you should refer back to the previous occurrence of this interpretation.

At the top right margin after the dates, the abbreviated names of the aspects and the two factors involved are given. For example, "Jup Sqr Sat" means that during the given dates "transiting Jupiter" is squaring your "natal Saturn". That is to say, the first factor that appears is always the transiting planet (present position of the planet in the zodiac), while the second component of the pair is "natal", or the position it was in the zodiac at your birth.

At the beginning of each interpretation the complete name of the aspect and the two factors involved are given in capitalized letters. As before, the first planet is in "transit" while the second is "natal".

Below it, the INTENSITY of the aspect is indicated in a scale from 1 to 10. That is to say, an aspect with an influence of 1 is very weak and may not even be noticed. On the other hand, an influence of 10 is very powerful. We can consider aspects with an intensity of 8, 9 or 10 VERY STRONG, 6 or 7 STRONG, 4 or 5 AVERAGE, DECREASING at 2 or 3 and VERY WEAK at 0 or 1.

This report interprets the aspects between the transiting planets and the following three natal planets: Moon, Venus and Pluto.

Feb 12, 2007 9 AM(Feb 11, 2007 to Feb 13, 2007) Sun Trine Plu

SUN TRINE PLUTO

INTENSITY: 2

At this time your sexuality and total vital energy will be revitalized and must be released through a creative exchange. You will be fully aware of the effect of love and of each instant in the interrelationship with your partner. Moments like this cannot be repeated and, without a doubt, constitute a great opportunity to develop and improve your own psychological qualities. Sexuality is not only a release of energy, but to understand yourself through exchange with the other. The act of love is an event of self-understanding and personal self-realization.

This is a good time to openly express your feelings so that you will be totally sincere with yourself and with your loved one. Sharing is being open to new realities, and opening up is necessary for a confident and respectful environment. Putting these qualities into practice will prove that boredom and monotony do not exist in real love. There always is something new to experience, to communicate and to put into practice. Sexuality should not wear out your energy, but release, expand, revitalize and recover your personal strength. This is a good way of finding out if the relationship works correctly, since "nothing is created, nothing is destroyed and all is transformed". Thus, the integral act of love must result in the revitalization of both partners on the physical as well as the emotional and mental levels. As a rule, when someone is tired, it is because you are not achieving an energy circuit adapted to the environment. On the other hand, when someone is revitalized, it is because you readily tune into others, and in this case, your partner.

Talk about your improvements since you were together, comment on the psychological deficiencies you have surpassed, and bring to light those that still need a bit of polishing. This sincere exchange produces great results and deepens your level of communication.

Feb 17, 2007 3 AM(Feb 15, 2007 to Feb 18, 2007) Mars Sqr Plu

MARS SQUARE PLUTO

INTENSITY: 3

A disharmonious aspect of transiting Mars to Pluto greatly increases your vital and sensuous energies. Your desires, feelings and even passions can be quite high, which makes it necessary to control, moderate and soften these forces. You tend to express yourself with strong emotions and great psychological vigor, but on occasion could be a bit sharp or slightly explosive. Thus, you will also have to control your imagination, in order not to exaggerate or be obsessed by small details in your relationship. For example, there could be groundless jealousy with respect to your companion, or you may attempt to impose your decision on him/her. If you think that your mate has offended you, or you are hurt by something that recently happened between you, it is best to express it clearly, with respect and as soon as possible. If both of you would be accumulating concerns or susceptibilities, they would come to light quickly in the near future and would have to be discussed unnecessarily.

It is necessary to accompany the act of making love with intensive communication, before as well as during and after. Real sexuality requires a good psychic understanding between both partners so that there can be a real union. If distrust exists or one is concealing certain aspects from the other, it is very difficult to reach real ecstasy and happiness.

It is necessary that both of you share your daily decisions, so that you are not bound by commitments that previously have not been planned jointly. If each one acts on his own, then the other will feel why bother, which could increase individualism. It is an excellent time to bring to light the psychological defects of each that had been retarding the development of the relationship. It would be good to talk about what you dislike about each other as well as what each one intends to change in himself. Conversation about your behaviors, attitudes, virtues and psychological defects, as well as both of your daily experiences is the better way to strengthen your affectionate life. Sharing life together makes happier, and helping one another to better yourself establishes strong roots for the future. If each one wants to improve himself, and if each one wishes that the other improve, the sentimental relationship will be firm and very creative. Speaking about the daily problems from a constructive and positive view without a doubt generates a better vibratory and psychic atmosphere in the relationship.

Mar 1, 2007 7 AM(Feb 28, 2007 to Mar 2, 2007) Sun Trine Ven

SUN TRINE VENUS

INTENSITY: 2

During the time of this harmonious aspect of transiting Sun to Venus your sensuous and affectionate feelings will be accentuated, that is to say, will be expressed clearly; without shyness, disguise or any complex. You now are sure of your feelings and need to revitalize them by sharing them openly with your mate. There is a better understanding between you and your loved one, since you experience that through your love relationship your own personal limits are transcended.

If you are in love with someone and up until now have not expressed your feelings, it probably would be a good time to do it, provided that you are sure and know for certain that your selection is right. If you already have someone or are married, use this chance to reaffirm your love for them, since that revitalizes the feelings for both of you.

What makes your love relationship more attractive now is that you are sure within yourself, which is not being attached or dependent on your mate, or searching for energies that you may lack; on the contrary, you radiate energy and want to share it with the person you love.

There is a possibility of making a good social contact, or entering a higher circle thanks to the prestige of your mate or partner. The harmonious influence of the Sun can bring a small social rise or personal prestige in your life, to a degree thanks to the harmonious influence you are having and in that sense your companion.

Mar 2, 2007 4 AM(Mar 1, 2007 to Mar 3, 2007) Sun Trine Moon

SUN TRINE MOON

INTENSITY: 2

This is a good time to strengthen family relationships and the ties with your loved ones. During this period you see things more from an emotional point of view and your psyche now is able to surpass the susceptibilities, including those bound to family situations of the past. This is an auspicious time to be sincere, noble and open with the people most dear to you. It is well known that family relationships rarely are a bed of roses, since generally always one thorn or another emerges. Precisely, this astrological aspect can motivate you to approach and be reconciled with someone, with whom you previously had certain tension.

This aspect almost guarantees success, since you are now above misunderstandings and mistakes of the past.

If you are married or have children, it is a good time to guarantee your personal individual integration with your family environment, living the fact that "the personal path of evolution starts in the family". You see that by emitting noble energies, the energies returned to you are also of high and protective character. It is a good time to try and make your household a bright spot, full of warmth, conscience and protection. At least, at this time it is very clear to you that even attempting it is worth the trouble, and that success can be achieved with a little effort.

You are sure of your feelings and the fondness of your loved ones, and because of this, deeply impress the people you love. It is neither more nor less than what is visible, and what is real, noble and high always grows and fructifies. In this case, you plant the seeds of delivery, sacrifice and nobility, and the fruit thereafter will be creative and full of deep emotional experiences. That is to say, if you show your emotions openly to your loved ones, your fondest dreams will be fulfilled, since they will reciprocate in the same way.

This aspect is of short duration and doesn't have too much strength, though it can be potent if it is used in a conscious way.

Mar 2, 2007 11 AM(Mar 1, 2007 to Mar 3, 2007) Ven Sqr Moon

VENUS SQUARE MOON

INTENSITY: 1

During the days of this aspect your psychological state probably will fluctuate from the height of superficial happiness to extreme melancholia and a sense of isolation. In reality, there are two kinds of vibrations that prevent you from maintaining an even course, but are continually tilting from one extreme to the other. It is advisable to take some time for personal reflection, thinking about your more recent affectionate or sentimental experiences, before reacting or acting without previous contemplation. Now is the time to look deeper into your real psyche, avoiding at all cost to express your feelings outwardly without having sufficiently worked out what comes from within.

If you are sensitive or affected by the reaction of a relative, a friend, a loved one or even your mate, above all control your imagination, otherwise you run the risk of making a mountain out of a mole hill. Don't evade the situations or people responsible for your sensitivity, but simply reflect on the real meaning of that experience and how to respond to it. Either way, after calming yourself and having reflected you think that your loved one has made a mistake, it is

advisable to outline everything smoothly and objectively without getting too personal.

You won't go from a feeling of joy to melancholia very easily, since you are not living in a fairy tale nor in a valley of tears. Find a balance between your family responsibilities and your need for entertainment, amuse yourself and relax a while. If you are involved in a love relationship now, see to it that it will be as harmonious as possible with your family to avoid small irritations or sensitivities in the future.

Mar 11, 2007 3 PM(Mar 10, 2007 to Mar 12, 2007) Mars Sqr Ven

MARS SQUARE VENUS

INTENSITY: 3

This astrological aspect increases your sensuous and affectionate energy. Thus, you will be impelled to express your emotions spontaneously, direct and on occasions a bit sharp. In love it is not only necessary to want much, but also to want well, therefore it is recommendable to moderate and soothe your emotional reactions. Don't forget that in the relationship of a couple the aesthetic details, refinement and good taste is also important. Declare your love for your companion in a sweet, respectful and comprehensive way, as too much passion could bring jealousy. Passionate love is one thing and another very different thing is loving passionately, and it is necessary to establish a boundary between one and the other. Not going directly to the point will be a little more romantic, gallant, amiable and genteel.

If you are not involved with anyone, this could be a time when you are enamored quickly and may approach someone that is attractive to you, but you may do it in a daring or untimely way. If you don't moderate your impulse, it is very probable that you may be rejected, since others will see you a bit sharp or discourteous.

Avoid egocentric attitudes and learn to share your decisions with your mate, as you now tend to act on your own without consulting your loved one beforehand. Your companion could be annoyed, because you are speeding up the pace too much in matters that actually relate to both of you. Thus, there could be a case in which you launched some initiative without having counted on him/her sufficiently. And as a consequence, your companion may be burdened with part of the work for which you are responsible. Therefore both of you should jointly plan the next steps you are going to take, which should not be seen as a loss of your own decisive capacity. Rather, exactly the opposite, since deciding jointly will suppose greater wisdom at the time of carrying out your plan of action. Your mate will help you to be more moderate, balanced and equitable, which, without a doubt, will increase your possibilities of success. This conciliation of objectives

between both of you will make you happier as a couple and, at the same time, each of you will be more successful in your family, profession and, as a rule, in the every day world.

Mar 12, 2007 8 AM(Mar 11, 2007 to Mar 13, 2007) Ven Oppos Plu

VENUS OPPOSITION PLUTO

INTENSITY: 0

A disharmonious aspect of transiting Venus to Pluto brings an increase of your sensuous vital energies. This means that your affections will be accentuated during the time of this astrological aspect. An increase of your personal energy level in principle is of neutral character, that is to say, neither harmonious nor disharmonious, since this depends a great deal on your will. A disharmonious astrological aspect, without a doubt, could incline you to express that energy in an unbalanced way or against your natural character. That is to say, your affectionate energy could have psychological manifestations of a disharmonious character, such as jealousy, excessive attachment to your loved one, or trying to impose your whims on your mate by more or less subtle methods. It is advisable to become aware of this and to control certain instinctive tendencies that now could emerge. Remember that happiness in your relationship, the integration with your loved one, and your personal accomplishment depends a great deal on the respect you have for yourself and each other. Avoid capricious, disrespectful or out of place reactions, and try to amend this kind of conduct and extreme attitudes, always cultivating a moderate and balanced behavior.

Desire is an innate and natural inclination in human beings and, if it is accompanied by emotions and higher thoughts, constitutes the basis for greater happiness and personal development. It is important that the desire always will be an instrument of the personality, and not the other way around, since in this case sooner or later dissatisfaction is produced. Thus, if you allow yourself to be controlled by the instinct of pleasure, you won't have the ability to relax, to enjoy yourself and expand the relationship with your mate. Rather, a vacuum sensation exists upon channeling personal sensuous energies only toward physical pleasure.

You have to learn to relax, to take your time, and to give your sensuous appetites a creative impulse, which neither more nor less is the basis of total sexuality.
